

Everybody Move In On

Indra

Everybody singin, move out, move in on
Everybody singin, move out, move in on

Feeling blue... baby
Losing all control
Love is true baby
We got to move it on and on
We got all the time, we got all that's fine
We got all we're doing every feeling
Love is what I find when I see your smile
When we come together say forever

Everybody singin you and I
Everybody movin, you and I
Everybody singin you and I
Everybody movin, you and I

You make me soul baby
Send me one more sign
Wings movin baby
The plane is on the time
We got all the time, we got all that's fine
We got all we're doing every feeling
Love is what I find when I see your smile
When we come together say forever

All right here we go now
Let's go !
We got to take you up, baby
We got to take you down, baby
We got to take you up, baby
We got to take you down, baby, uh !
