

# I'll Never Let You Go

Indra

One two three four (turn it up) - Just wanna tell you now  
Cinq six sept huit - I'll never let you go  
One two three four (turn it up) - It's all for you now  
Cinq six sept huit - I'll never let you go

In your arms I fall  
Every time you're at my door  
My heart ..... yes my sweet love  
Your eyes tell me my love  
You make me lose control  
Step in, take my sweet home  
This ..... all your.....  
Show me what's inside

Oh dis moi... Je t'aime

So what, ..... In my home  
Let me take you back if .....  
But I hold on that is what we are searching  
Want to get you dreams and a life a happy end  
So go, take your pack and get a suitcase  
Bring yourself to me we're gonna have a B'n'B  
And that's forever, yes, I guess we're gonna do that  
Wanna tell ya know that I will never let you go, no

Dis moi... My love... ah...

One two three four - More and more... I like it  
One two three four - More and more... I like it
