Temptation

Sors de tes habitudes? See'est l'amour tout ca Laisse toi tomber dans la tentation? Watching and waiting Looking for a positive kind of sign Together forever I can't wait until that you are mine Temptation imagine what it can do Temptation magic that has cast a spell on you Touching and pleasing All these things we'll have in time Fire desire I can't wait until that you are mine And I can clarify this I won't let the day mass Nor deny you with love and attention so full Of the right temptation Starting with a new direction 'Cause you make me blush sigh cry and sweat Undeniably how can you forget That I'm so so so yeah I'm so so delicious Full of emotion devotion Making the move sets us into the groove Time on our side nothing to hide I want your touch no turning back temptation
