

We Belong Together

Indra

We belong together
Like summer and sun
We belong together,
You're my number one
I'll never leave you alone
We belong together
It feels like I'm in heaven
Like summer and sun.
I'll never never know
We belong together
I wanna stay forever
You're my number one.
I'll never leave you alone

Don't you know
You were treating me so bad
It was more
Than another affair we had
In my mind
I never loved someone like you before
And I cannot ignore
You made my life just more than a foolish game
Since the day you came

It it true.
Don't you want me anymore
Tell me why.
Can you feel the same as before
When you're gone
I feel so lonely waiting all night long
Cause together we're strong
I always wanna make you feel the same
Since the day you came
