Infa Riot

Power to the people, freedom of our rights

Power to the people, it's a never ending fight

We'll all stand together, we never want a war

We'll all stand together, Time is getting short

What aren't we going to do, keep on running fast

What aren't we going to do, throw their sword back

Put your hands together, we need you on and off

Put your hands together, ??? applause

Stand up strong and mighty, our strength is not a few

Come and join the police man, it's only good for you

??? thinks he knows what he's doing

??? doesn't know nothing

??? something to ???

Bring us to the lochs and feed us to the fish

Our lives ain't worth ???

At least we know we're getting in
