Go Away

Infected Rain

You think you have me
You think you want
But you don't give a shet
You think you know me
And understand me
You think you're here
But you don't give a shet

Go away just go away
Don't try to come back

I want to show you
I want to give you
I want to play
But you don't give a shet
I try to fix you
And hypnotize you
I try to fly but you don't give a shet

Go away just go away
Don't try to come back

I just want to know
If you are here alone
If you are afraid of darkness
Or I'm too weak to have us

Go away just go away
Don't try to come back
