## Infected Rain

I thought I died without conclusion  
But you know what? I give you your revolution  
Your bloody acts signed me forever  
I'm like a freak removed from heaven

I can tell you a sub-story of a quiet little doll  
She lived in the world without hope and control  
Her father was absent never came home sober  
He destroyed her world and made her mother suffer  
I'll tell you the truth this doll is my reflection  
I'll open my hart and I'll give you my confession  
Why?

I thought I died without a conclusion  
But you know what? I give you your revolution  
Your bloody acts signed me forever  
I'm like a freak removed from heaven

You played with me like a doll  
A doll without heart and soul  
You told me "you're my blood "  
And what we do is very smart  
You lied to me and made me suffer  
You ruined me and used like a cover

I thought I died without conclusion  
But you know what? I give you your revolution  
Your bloody acts signed me forever  
I'm like a freak removed from heaven

Now you're gone, but I feel like in a nightmare  
You're not here, but I feel like you're everywhere

I thought I died without conclusion  
But you know what? I give you your revolution  
Your bloody acts signed me forever  
I'm like a freak removed from heaven

I paid for your sin  
And now it hurts  
But I can scream  
I lost my mind, my family  
I don't want to cry  
Because you're my enemy

Why? Why? Homeless, useless, why? Why?

I thought I died without conclusion  
But you know what? I give you your revolution  
Your bloody acts signed me forever  
I'm like a freak removed from heaven.
