

Hysterical watches

Infected Rain

Years are passing, passing - falling through time
Nobody is watching, watching - I'm sleepy and blind
Watches are ticking hysterically - I'm bored and weak
Screaming and crying pathetically - I'm tired and sick

Watches are ticking, time is passing.

(Chorus) Loneliness - is sucking the air out of my lungs
Bitterness - penetrates me and my thoughts
Butterflies - possess me and my belly
Snakes - trying to choke me all day

So many thoughts in my head - falling through time
So many holes in my bed - I'm sleepy and blind
I can't sleep, I can't forget - - I'm bored and weak
So many things I can't accept - - I'm tired and sick

(Chorus)

My eyes are saying: don't cage me!
I just want to be free
My body is yelling: possess me!
I don't want to be here

Watches are ticking, time is passing.

(Chorus)
