

My cage

Infected Rain

Something bothers me inside
Pointless dreams blacken my mind
I'm weak and I'm blocked here in my cage
I hate to be controlled, it's making me edgy

(Pre) I'm screaming and yelling under my breath
I'm crying, I'm bleeding silence scares me to death

(Chorus) Things are going on so strange
Tears are falling on the page
I tried to write about my fears
About the past and harmless bliss

Claustrophobia is creeping up on me
Breathtaking thoughts are sharp and hurting me
Piercing silence is freaking me out
Dreamless nights come right on top

(Pre)

(Chorus)

My body is my cage, my past is my religion
My creed is this stage, you are the one I breathe for
