

Biting The Bullet

Infernal

Biting the bullet
Biting the bullet

Every time you come around
You've got me feeling good
So the bad boy
So the sadly misunderstood
Always try to talk to me
I don't know what to say
Wonder why that thing about you
Got me so amazed
Ashamed of my desire
Just can't put out the fire

Didn't build it up
To watch it fall
Oh you make me go insane, oh yeah
Now you got me up
Against the wall, oh
Biting the bullet again
Where do you go?
What do you say?
I don't wanna be obsessed
I wanna take a rest from
Trying to be
And trying to say
It's gonna break me
If I'm biting the bullet again, woah

Every touch I feel that this is
Never gonna fade
Knowing with certainty: it is too late!
Looking at ya, feeling that ya
May be my demise
I'm forgetting everything
I used to think was wise
I'll let you take me higher
Your taste, your smell - it's fire

Didn't build it up
To watch it fall
Oh you make me go insane, oh yeah
Now you got me up
Against the wall, oh
Biting the bullet again
Where do you go?
What do you say?
I don't wanna be obsessed
I wanna take a rest from
Trying to be
And trying to say
It's gonna break me
If I'm biting the bullet again

Biting the bullet

Where do you go?

What do you say?
I don't wanna be obsessed
I wanna take a rest from
Trying to be
And trying to say
It's gonna break me
If I'm biting the bullet again

Your taste, your smell - it's fire

Didn't build it up
To watch it fall
Oh you make me go insane, oh yeah
Now you got me up
Against the wall, oh
Biting the bullet again
Where do you go?
What do you say?
I don't wanna be obsessed
I wanna take a rest from
Trying to be
And trying to say
It's gonna break me
If I'm biting the bullet again
