

# Electric Light

## Infernal

People tell me I'm far too obsessed but they don't  
Understand how it feels to be me and I won't  
Be told by others what I shouldn't like  
I just feel right when I let myself go

It can fill me with pride and excitement inside  
Such a thrill to be filled with the joy and delight  
How could everyone not feel the same?  
Oh they don't see

That there is something on my mind  
It is a world they left behind  
And it will always draw me closer

I want electric light  
That flashes away  
I want my heels sky high  
I can't run away  
And I say uhh, ahh  
And baby, come play  
And I know just why  
I wanna stay  
'Cause on a disco night  
Everything is all right

All the time I pretend to be into something  
That I don't really like or connect with at all  
Just to please someones credible mind  
But that ain't me

'Cause in my heart I'm someone else  
And it's been true since I was twelve  
And baby now I'm singing my song

I want electric light  
That flashes away  
I want my heels sky high  
I can't run away  
And I say uhh, ahh  
And baby, come play  
And I know just why  
I wanna stay  
'Cause on a disco night  
Everything is all right

Everything is all right  
Everything is all right

I want electric light  
That flashes away  
I want my heels sky high  
I can't run away  
And I say uhh, ahh  
And baby, come play  
And I know just why  
I wanna stay  
'Cause on a disco night

Everything is all right

I want electric light  
That flashes away  
I want my heels sky high  
I can't run away  
And I say uhh, ahh  
And baby, come play  
And I know just why  
I wanna stay  
'Cause on a disco night  
Everything is all right

Everything is all right  
Everything is all right

I want electric light  
That flashes away  
I want my heels sky high  
I can't run away  
And I say uhh, ahh  
And baby, come play  
And I know just why  
I wanna stay  
'Cause on a disco night  
Everything is all right
