

Punk Disco

Infernal

It's time to loosen up your tie now
You've gotta loosen up somehow
You're making everybody else frown
When you're never getting down

'Cause you should simply come along
Stop thinking "what is wrong?"
'Cause if you try
To find another attitude
You're ready for a good time
You will be ready for a good time!

I've been waiting so long for you to go crazy:

Let me get right to the point; get busy boy!
Punk disco - punk punk disco
Yeah, I get right to the point, little busy boy
Punk disco - punk punk disco disco

'Cause I know, you know my name
Punk punk disco
But let the person outshine the fame
Punk punk disco
And let the diva reign supreme
Punk punk disco
'Cause I can make you scream, baby, I'm your living dream

You could check me out in secret
Or you can tell me that you're interested
Kinda' think the wait is boring
Someone else might come along

'Cause I don't know what's on your mind
Or at what point in time
You'll make your move
And finally prove
That you're ready for a good time
Yeah, that you're ready for a good time

I've been waiting so long for you to go crazy:

Let me get right to the point; get busy boy!
Punk disco - punk punk disco
Yeah, I get right to the point, little busy boy
Punk disco - punk punk disco disco

'Cause I know, you know my name
