

Redefinition

Infernal

Ladies and Gentlemen
It's time for me to present to you
A redefinition of disco
A new kind of go go
That will pump in your heart
'Till the beat falls apart in the sunlight

Oh, Electropop
And this tech and club
Music is meant to be fun
When the beats are slow
Oh, they break my flow
And all I can do is just run

Because I'm telling you
I know what to do, uh uh
We need a revelation
And baby, baby, baby here's my creation

So let me present now
A redefinition of disco
A new kind of go go
That will pump in your heart
'Till the beat falls apart in the sunlight

So let me present now
A redefinition of disco
A new kind of go go
That will pump in your heart
'Till the beat falls apart in the sunlight

Mh, I need some sub
And a vocal-dub
Making it thick and fantastic
'Cause there's nothing like
When you really strike
A beautiful note that will stick

Yeah, it will stay with me
And tickle my bra-i-ain
It's all a new sensation
And baby, baby, baby I love this creation

So let me present now
A redefinition of disco
A new kind of go go
That will pump in your heart
'Till the beat falls apart in the sunlight

So let me present now
A redefinition of disco
A new kind of go go
That will pump in your heart
'Till the beat falls apart in the sunlight

'Till the beat falls apart in the sunlight
So let me present, so let me present, so let me present

So let me present now
A redefinition of disco
A new kind of go go
That will pump in your heart
'Till the beat falls apart in the sunlight

So let me present now
A redefinition of disco
A new kind of go go
That will pump in your heart
'Till the beat falls apart in the sunlight

So let me present now
A redefinition of disco
A new kind of go go
That will pump in your heart
'Till the beat falls apart in the sunlight

So let me present now
