

Move Out

Information Society

One last drive through the suburbs
You feel ready to leave the ground
You've got your records packed away in boxes
But you don't really know what it means to leave

I'm still falling

Move out on your own
You're finally in control
Now you're on your own
Just watch it all unfold

Move out now
Move out now

Turning onto the freeway
You can't remember why you want to leave
You're holding onto pictures of your friends
But you don't want to stay around here anymore

I'm still falling

Move out on your own
Though your future is unknown
Sailing under your own power
Now your life is yours

Move out now
Move out now

Move out on your own
You're finally in control
Now you're on your own
Just watch it all unfold

Move out on your own
Though your future is unknown
Sailing under your own power
Now your life is yours

Move out now
Move out
Move out now
Move out
