

## Come Around

Ingram Hill

Short skirt, tight t-shirt,  
and knowing all the while  
I turn around to look at you,  
you barely cracked a smile  
As the sun fades, with a drink or two,  
you take me for a ride  
You won't say just what you want,  
but I can see it in your eyes

You don't understand all the mess we're in  
I wish you'd never made a sound  
You don't understand but it's got to end  
You'll find the strength to let me down  
When you finally come around

Behind the wheel at 3am,  
I wake you up to talk  
Only late you'll hear my voice,  
but you don't mind at all

You don't understand all the mess we're in  
I wish you'd never made a sound  
You don't understand but it's got to end  
You'll find the strength to let me down  
When you finally come around

Give me all the blame  
Cause I don't want the same  
But I don't know how to let you know  
Here we are, face to face  
I'm glad that you're in town  
You stay the night, while I'm alone  
Guess you finally came around
