Firefly Ride

Ingram Hill

Can I talk to you again? Pull you away from all your friends I've got somewhere for us to go But if you don't know Then I can show you Bring you back tomorrow

Will you let me take you on my firefly ride? Ten miles high, starlit sky Will you let me take you on my firefly ride? Tonight, tonight, tonight, tonight (2x)

Heard it a hundred times before I've got all you'll want and more So let my hand hold on to yours But if you don't know Then I can show you Bring you back tomorrow

Will you let me take you on my firefly ride? Ten miles high, starlit sky Will you let me take you on my firefly ride? Tonight, tonight, tonight, tonight (2x)

So don't worry about What they're saying now There's no need to wait I want you to stay So don't worry now Don't have a doubt I'll give you a night you'll never forget

Will you let me take you on my firefly ride? Ten miles high, starlit sky Will you let me take you on my firefly ride? Tonight, tonight, tonight, tonight (2x) Tonight
