Slippin' Out

Walkin' in my sleep again Where were you Off in some distant land Was I with you

Slippin' out again Slippin' out again Slippin' out again

Take my hand and let it all go down Till I am sound asleep Walk away out in the cold Open your soul to me

Walkin' in my sleep again I am here Run with me if you can I feel you near

I don't know where I am again Find my way back to the bends Now I can find you
