

Freak Show

Ingrid Michaelson

Welcome to the freak show
Come step into my world
Built it for myself
Put all my memories on the wall
(All my memories on the wall)

Welcome to the freak show
Where nothing can burn out
Nothing can break down
It's where I run away from it all
(Where I run away from it all)

When you wake up and you're all alone
And the bed's too big for one
Well you're not the only weird one here
Let me show you where I'm from

Welcome to the freak show
I got a place that we can go
Welcome to the freak show
I got a place nobody knows

Welcome to the freak show
I got a place that we can go
Welcome to the freak show
I got a place nobody knows

Feels different tonight
With you here on my side
Oh, I could just get lost here for days
(I could just get lost here for days)

When you wake up and you're all alone
And the bed's too big for one
Well you're not the only weird one here
Let me show you where I'm from

Welcome to the freak show
I got a place that we can go
Welcome to the freak show
I got a place nobody knows

Welcome to the freak show
I got a place that we can go
Welcome to the freak show
I got a place nobody knows

Who wants, who wants
Who wants to be normal anyway
Anyway
Who wants, who wants
Who wants to be normal anyway
What's normal anyway

Welcome to the freak show
I got a place that we can go
Welcome to the freak show

I got a place nobody knows

Welcome to the freak show (Who wants, who wants)

I got a place that we can go (Who wants to be normal anyway)

Welcome to the freak show

I got a place nobody knows

Welcome to the freak show (Who wants, who wants)

I got a place that we can go (Who wants to be normal anyway)

Welcome to the freak show

I got a place nobody knows

Welcome to the freak show
