Keep Warm

Ingrid Michaelson

Eyes on the prize and I can't capsize this time 'cause there's somebody else in my boat Used to live alone in a tomb I made my own But now I've gone and given up my coat

And it's cold outside but I'm just fine You are mine to keep warm

Down down down I go
On a road that I don't know
And I ain't got a thing in my bag
Some things you can not plan
Like your hand in mine
Just put your hand in mine

And it's cold outside but I'm just fine You are mine to keep warm Yeah it's cold outside but I'm just fine You are mine to keep warm

Sables and wine till the end of time you give me much more than that

Diamond rings and beautiful things Oh you give me much more than that When you smile

You are mine to keep warm
And it's cold outside but I'm just fine
You are mine to keep warm
