

Light Me Up

Ingrid Michaelson

Well you're not what I was looking for
But your arms were open at my door
And you taught me what a life is for
To see that ordinary, isn't

Light me up again
Light me up again
And I want to keep us all alive
And I want to see you with my eyes
But I see you in the fireflies
And how extraordinary is that

Light me up again
Light me up again

And you don't hold back
So I won't hold back
And you don't look back
So I won't look back

Light me up again
Light me up again

We are, we are, we are tonight
We are, we are, we are forever
(x4)

And you don't hold back
So I won't hold back
And you don't look back
So I won't look back

Light me up again
Light me up again

And you don't hold back
So I won't hold back
And you don't look back
So I won't look back

Light me up again
Light me up again
(x2)

We are, we are, we are tonight
We are, we are, we are forever
(x2)
