

Men of Snow

Ingrid Michaelson

Once I made a man all out of snow
He had the darkest eyes and a button nose
I told him all my sadness and my fear
And he just listened with a snowy ear

But when I came around the next day
My friend had gone and melted all away
I saw his eyes lying on the ground
I made a sound that was something like crying

Oh, one day you will go away from this
Oh, one day you will know we're men of snow, we melt one day

And winters come, and my love, the winters go
And time stacks up in piles like winter snow
And everything you love and hold so dear
Won't really matter when we disappear

Oh, one day you will go away from this
Oh, one day you will know we're men of snow, we melt one day
Oh, one day you will go away from this
Oh, one day you will know we're men of snow, we melt, you know,
we're men of snow.
We melt one day
