

# Stick

Ingrid Michaelson

Long long time ago  
You and I put on a show  
Then we ran it in the ground  
You said it's not enough  
Don't want a broken love  
You were nowhere to be found  
Even after something's gotta hold on

Did any of me stick at all?  
Was it really no one's fault?  
Can you hear me singing through the walls  
That we used to lean on?  
There's a part of you that stays with me  
Someone else gets to know  
Did any of me stick at all?  
Did any of me ever stick at all?

I've got somebody new  
He dances just like you  
It makes me wonder how you are  
I can't hide the memory  
The memory of you and me  
When we went kissing in the dark  
I'm always after something that won't hold on

Did any of me stick at all?  
Was it really no one's fault?  
Can you hear me singing through the walls  
That we used to lean on?  
There's a part of you that stays with me  
Someone else gets to know  
Did any of me stick at all?  
Did any of me ever stick at all?

We are the road untaken  
The moon that's fading  
If it means that you and me we gotta break it  
Well I'm done faking  
But I need to know  
Do you remember who I am?

Did any of me stick?  
Did any of me stick?

Did any of me stick at all?  
Was it really no one's fault?  
Can you hear me singing through the walls  
That we used to lean on?  
There's a part of you that stays with me  
Someone else gets to know  
Did any of me stick at all?  
Did any of me stick?  
There's a part of you that stays with me  
Someone else gets to know  
Did any of me stick at all?  
Did any of me stick at all?
