

Baby, you drive me so crazy  
Baby, you drive me so crazy  
Baby you drive me so mad  
You got me running round the town  
Like a woman on a warpath

You put a spell on me  
It's so good, can't you see?  
But you got the magic to set me free

Baby, you drive me so crazy  
Baby, you drive me so crazy  
Baby you drive me so mad  
You got me running round the town  
Like a woman on a warpath

You use your magic touch  
Blood runs faster, you make it boy  
Then you're gone forever and it hurts so much

Baby, you drive me so crazy  
Baby, you drive me so crazy  
Baby you drive me so mad  
You got me running round the town  
Like a woman on a warpath

There was a time when you were high over me  
But then the dark would stroke  
And now you sail the sea

Baby, you drive me so crazy  
Baby, you drive me so crazy  
Baby you drive me so mad  
You got me running round the town  
Like a woman on a warpath

Baby, you drive me so crazy  
Baby, you drive me so crazy  
Baby you drive me so mad  
You got me running round the town  
Like a woman on a warpath  
Baby you drive me so mad  
You got me running round the town  
Like a woman on a warpath
