

## Derelict

Ingrowing

Abandoned tissue, abandoned mind  
Nobody knows you are hidden without relevant sign  
You feel maybe like derelict unhinged parasite  
Until your time have come  
Just train and fortify your mind  
Derelict... derelict... small being in the soft sphere  
You are derelict, shy... And all alone  
But all you need you have here  
Therefore why to risk to ask, you are derelict  
Like living fossile in liquid inside the flask  
Therefore why to risk to ask  
Like living fossile in liquid inside the flask
