

Derelict

Ingrowing

Abandoned tissue, abandoned mind
Nobody knows you are hidden without relevant sign
You feel maybe like derelict unhinged parasite
Until your time have come
Just train and fortify your mind
Derelict... derelict... small being in the soft sphere
You are derelict, shy... And all alone
But all you need you have here
Therefore why to risk to ask, you are derelict
Like living fossile in liquid inside the flask
Therefore why to risk to ask
Like living fossile in liquid inside the flask
