Derelict

Ingrowing

Abandoned tissue, abandoned mind Nobody knows you are hidden without relevant sign You feel maybe like derelict unhinged parasite Until your time have come Just train and fortify your mind Derelict... derelict... small being in the soft sphere You are derelict, shy... And all alone But all you need you have here Therefore why to risk to ask, you are derelict Like living fossile in liquid inside the flask Therefore why to risk to ask Like living fossile in liquid inside the flask
