

## Fight Might Be Right

Ingrowing

Stop the feeble moaning, it's time to raise our heads  
Reluct against terror, nation of expelled deads

Fight might be right, right will be our fight  
Freedom is our light, fight might be right.  
Now it has to come... fight might be right  
Our past lives are gone... fight must be right

Living on the edge of poor „to be or not“  
If aren't you ready, shook your head else nod  
Fight might be right, right will be our fight  
We live out of sight, fight must be right.
