## Fight Might Be Right

## **Ingrowing**

Stop the feeble moaning, it's time to raise our heads Reluct against terror, nation of expelled deads

Fight might be right, right will be our fight Freedom is our light, fight might be right. Now it has to come... fight might be right Our past lives are gone... fight must be right

Living on the edge of poor "to be or not"

If aren't you ready, shook your head else nod

Fight might be right, right will be our fight

We live out of sight, fight must be right.
