

# Kill the Original

Ingrowing

There is no chance, to keep your life in safe  
Nobody is trying, everyone loses his chance

Slaughtering the originals, like night of fucking long knives  
Nobody will see you're dead, kill the originals  
You're at your end, genes showdown starts  
Kill all originals, there's no use for them  
Kill all originals, 'cause now we are the same

Same proteins structure, the difference is gone  
Seek and destroy your alter ego, atomize each exon  
Clones are at top...

Ref 2x:

Artificial replications, humanity to sweep away  
Homicide indexed, their blood is too cheap this day  
Kill the original, hard part to do  
Kill the original, kill your original too...
