

Life Stealth

Ingrowing

Life!
Fragments and parts
All clues of your cheap life
Sampled, indentified
Your world will end, we're starting the strife

Ref 2x:
Stealing your life, there's none place we miss
You're our target to seize...
Stealing your soul, you are to disappear
You'd worry or fear...
Stealing your mind, it's worse than infection
Copied resurrection...
Stealing your life, you can't face your fall
That's sure for you all...

Resurrection...
Or life stealth?
