

Nanopunctures

Ingrowing

Cut, slit, rip, slash, cell industry's art
Nanopuncturing the ovum 'n' fluttering bioshards

Canning the life into the vials and sterilized flasks
Penetrating all vital germs, a human copy unmasked
Tissue matrix soilure, a non-orgasmic way
Constructing an aprosopus, next sixth day

Nanopunctures, yes!

Punctures, nanopuncture future...
Puncture, nanopunctures...
