

I don't care if you're from the North
I don't mind if you're from the South
East Coast, West Coast to Tokyo
We're gonna grab our guitars
Come on, let's go
Cuz there's a fire burning in our soul
We just wanna play some rock n roll
Win some
Lose some
We'll play anyway
But Hey! Hey! You know we're here to stay
They're making me crazy
They're driving me crazy
I think I'm going insane

We're gonna rock until everybody's on their feet
We're gonna turn up the music
Can you feel the beat
We're gonna rock gonna have us a real good time
I'm making noise until they take us away
They said turn down all of them noisy guitars
Listen to the man just to see the charts
Sell out now or we'll push you down
You'll never make it baby in this town
But there's a fire burning in our soul
We just wanna play some rock n roll

Win some
Lose some
You pushed us around but
Hey! Hey! you haven't knocked us down
They're making me crazy
They're driving me crazy
I think I'm going insane

We're gonna rock until everybody's on their feet
We're gonna turn up the music

Can you feel the beat
We're gonna rock gonna have us a real good time
Making noise until you take us away
