

## Día De Los Muertos

Inkubus Sukkubus

Here in this dream world  
Await for the real world  
I wait with the living  
I know you'll return soon

To guide me  
The bright calavera(skull)  
Smiles down at your love walls  
It plays as you play

Your guitar with a sweetness  
Dance with me, dance with me  
Lift me to heaven  
My beautiful man, how I miss you beside me

Healing your warmth and your touch will restore me  
Come to me, lie with me  
Take me back with you  
We could eat more, mi amor lo necesito, te quiero

This world is as nothing  
And next world has you, my love  
Lover, come back  
Take my hand and we'll fly now  
Lift me up high

Let our souls weave together  
I won't say goodbye

May this day last forever  
We'll dance in the sky  
May this day last forever  
Our love cannot die  
May this day last forever  
Let's leave life behind  
May this day last forever  
To all else, I am blind  
May this day last forever  
Come, love, let's fly  
May this day last forever
