

## Erotic Angel

Inkubus Sukkubus

Beneath the sun of a blood red sky  
He fell like a stone to eternal night  
Like a comet in a ball of flame  
An Angel of Light from the astral plane  
Knight of Heaven, to the Tsar of Hell  
To the Underworld with pride he fell  
In a distant time, the old primeval  
The time has come, the tide has changed

Fly Erotic Angel, Angel of desire  
Lead us to temptation, take us ever higher

Twelve thousand years, cast down to earth  
With broken wings and a broken heart  
One dark prince of the Seraphim  
Of passion, love and of Sin  
Bothers, Sisters, cast off your chains  
Let the slaves be free again  
Let the Devil take all the blame  
The time has come, the tide has turned!

Fly Erotic Angel, Angel of desire  
Lead us to temptation, take us ever higher  
All of the kings, and the sons of Men  
Have enslaved their women, and dread his name  
Lord of the Flies, Lord of lies  
With cloven hooves, and bloody eyes  
Fly Erotic Angel, Angel of desire  
Lead us to temptation, take us ever higher...
