

## Sabrina

### Inkubus Sukkubus

So deep, deep as the sky is high  
In my sleep your song has spun my dreams  
Darker than the night  
Wider than the sea

Oh, Sabrina, wild and free  
Oh, Sabrina, sing for me

Each breath of wind shall shape your form  
Who would guess your life would rise and fall  
How I fear your power  
How I miss you now
