

## Sweet Fallen Angel

Inkubus Sukkubus

Sweet fallen angel, come to me  
Let my embrace set you free  
Let my blade take away your pain  
For you and I are one and the same

Let me weave the dreams you dream  
Let me kiss away your tears  
Let me hold you as you sleep  
Let me take your soul to keep  
Let me take your soul to keep

I'll cradle you through endless sleep  
I'll stroke your brow through endless sleep  
I'll hold you close through endless sleep  
I'll kiss your lips through endless sleep
