

## Take My Hunger

**Inkubus Sukkubus**

Your love is crashing through my veins  
Your heat has far eclipsed the day  
Let nought but hunger take the pain  
We've lived as those who've lived for fame

Take my hunger  
Break my anger  
Steal all madness  
Slake my thirst

All those who would condemn our love  
Know not the beauty in your sun  
We'll live for that which must be done  
Release the bird to soar above
