

## Take the Kiss

Inkubus Sukkubus

You are burning with temptation  
I will be your desolation  
I am stronger than your resistance  
I am your annihilation  
I'm the spider and you're the fly  
In my embrace you will die  
In the rapture of earthly love  
I'll take you to the stars above

Come and take the kiss  
To free you from the summer sun  
Come and take the kiss  
Forget the rest for I'm the one

I am here in your dreamscape  
I have come to seal your fate  
You are yearning for my touch  
Both of lust and of love  
Take the pain, take the torture  
This is fate, fate and fortune  
Ascending on the astral plane  
To heaven, hell and back again

Come and take the kiss  
To free you from the summer sun  
Come and take the kiss  
Forget the rest I am the one  
Come and know the bliss  
Eternal youth, eternal hunger  
Take my deadly lips of freezing fire and silent thunder
