

## The Dark Goddess

Inkubus Sukkubus

It is the darkest hour of the night  
And it will be filled with blood and fire  
She said be quick before, I am gone  
For I shall fade in the morning sun.

She said act now while you can,  
While you can and are still a man,  
Because time will come, crueler than death  
Before death comes to claim the rest.

Yeah, oh yeah, you better believe it,  
The sweetest angel is the most evil.

She said kiss me, I'm a phantom born of desire  
And I shall make of you a man and a child.  
She said place your hand upon my breast  
For I will be gone before the dawn's first breath.

Yeah, oh yeah, you better believe it,  
The sweetest angel is the most evil.  
There is a darkness in this dream goddess  
and the most beautiful in the cruelest.

There is now and there is tonight  
And tomorrow is an unwritten page  
Do it now while you are of age  
Before sorrow writes tomorrow's page.

2x

Yeah, oh yeah, you better believe it,  
The sweetest angel is the most evil.  
There is a darkness in this dream goddess  
and the most beautiful in the cruelest.
