

# Halcyon Genesis

InMe

Sanctuary for the broken hearted  
Elysian fields harvested  
For the deary departed  
Paradise in those eyes  
Crumpled wings  
That were designed for the skies  
The past jonquil's hurtful words  
The cruel dreams  
That taunt the flightless bird

The pinions have healed  
Dominion is sealed in this floating nest  
(The breeze and seas will find rest)

The tempest was no contest  
For true ferocity  
Through thick and thin  
I gave these wings a new velocity  
I soared the clouds  
I flew proud  
Then curiosity shone from the sun  
(My new beginning had begun)

She shone a smile of sheer beauty  
I knew she wanted me  
And now its clear  
My best days are in front of me  
For hurt before we swore  
That love was a nemesis  
(Who could've known this was a halcyon genesis?)

She plants seeds  
That feed all the good within  
And there's no greed in the weeds  
To stop this flower breathing  
Love like the hybrid of a rose and an a amaranth  
(The halcyon navigates through the viny sky labyrinth)

With amethyst claws  
And a sapphire crest  
I'm all yours  
We've both been through the wars  
Our blood has stained the sand on distant shores

As the bird serenaded  
The scars they all faded  
(The tissue regenerated)  
Beautiful second chances  
A fallen feather dances  
As the twilight advances

The past hearts cracked  
Like eggshells between eagle talons  
But from the flames they rose  
Unafraid to upset the balance

Cerulean mystery

The sea bed's history  
The depths inside your heart  
Your heart
