

Your Pain

InMe

I hope that you can sleep?
The time has come again
Choices slow you down, we have to go up for air
She wonders where you are? She wonders who you are?
You're so beautiful, we have to go up for air
I wonder where you are?
She wonders who you are?

There something in your eyes that tells me it's over
something in my head again, And In your head it's hard to explain
in your pain

There something in your eyes that tells me it's over
something in my head again, And in your head it's hard to explain
in your pain

There something in your eyes that tells me it's over
something in my head again, And in your head it's hard to explain
in your pain(We have to go up for air)
