

Put Your Hands Up

Inna

Put your hand...
Put your hand...

True love never dies
I'm falling when time is passing
The world is pulling too fast
Love thing is made to last
Don't stop now and keep on trying
Live like nothing last too long
Don't give it up

Put your hands up
Dream until the morning
Put your hands up
Love is everything you've got

Cause the sun will keep on rising
And every day the world will keep on shining
Cause the sun will keep on rising
You get the way the world will keep on shining

Cause the sun will keep on rising
And every day the world will keep on shining
Cause the sun will keep on rising
You get the way the world will keep on shining

The love is better than yours, better than yours
Look in my eyes
Better than yours, better than yours
Look in my eyes

Lalalalalalalala
Lalalalalalalala

Put your hands up
Dream until the morning
Put your hands up
Love is everything you've got

Cause the sun will keep on rising
And every day the world will keep on shining
Cause the sun will keep on rising
You get the way the world will keep on shining

Cause the sun will keep on rising
And every day the world will keep on shining
Cause the sun will keep on rising
You get the way the world will keep on shining
