

# Imprisoned In Forgotten Dungeon

Inner Fear

When light is melting till last solid seed  
And shadows start to reign my tiny world

Waiting for the splendid horror  
Sacrificing consciousness I bear  
I don't need no fading world  
Just visions, whispers in the air

They unite, unveiling the darkness  
Acting so perfectly, feeding me well  
Suddenly I'm comprehending the reason  
Reason I'm left here to rot in this hell

And only shadows reign my tiny world  
My restless dreams embracing them again

Waiting for the splendid horror  
Dignity I've buried deep inside  
I don't need no false seduction  
Devastating slowly in my mind

For the emptiness I'm conceived

Watching their creepy elaborate art  
I'm torn asunder in motion  
Over and over acquiring me  
Collapsing the chances for me being free...

Once you are trapped  
In such a deep and restless story  
You will never forget  
What it means collapsing for it

Imprisoned in forgotten dungeon  
Never forget  
I'm imprisoned in forgotten dungeon
