

# Redemption

Innerpartysystem

She walks the lonely street  
she stares at herself and thinks  
this is someone i don't want to know  
her heart is sinking like a stone  
to the bottom of the bottle where love never grows  
and nothing can live and light never shines

I say  
(your life has come to this  
your life has come to this  
your life has come to this but you won't die)

She cries out to the angels  
redemption  
to end her dance with devils  
salvation

Tries to attack the changes  
tries to forget the faces  
that pushed her to this place that she calls home  
her future's sinking like a stone  
to the bottom of the bottle where everyone knows  
and nothing can live and nothing can die

(your life has come to this) your life has come  
(your life has come to this) your life has come  
(your life has come to this you will die)

She cries out to the angels  
redemption  
to end her dance with devils  
salvation

I know, but she told  
that's how love goes  
and everyone that loved her has moved on

(2x)  
She cries out to the angels  
redemption  
to end her dance with devils  
salvation
