## **Feel The Magic**

InnerWish

Feeling of sadness Loneliness and pain Gloomy clouds are covering my days

And nights full of sorrow Waiting for a star to fall Hoping that my wishes will come true

I want to see What is in my mind What is in my soul, What is in my heart

A magical shadow is coming through the dark Showing me the way to go on You heard my calling, gave meaning to my life And I'll do everything to keep you by my side

Now it's clear to me, what is in my mind, what is in my soul, w hat is in my heart.

Because when you touch my heart I feel the magic Angel of light dances into my dreams When you touch my heart I feel the magic Holding me tenderly under your spell.

I wish that my dream will never end Because you are the air that I breathe. You light the fire that is burning in my heart And keeps me alive for ever more

Feeling of sadness Loneliness and pain, They where just a dream that flew away
