

## Have You Ever

InnerWish

One more day passed behind  
Promises inside my mind  
As the lights fades away I'm alone  
Feeling come like old waves  
Then the clock trucks twelve  
And my self fights to swallow the pain.

Have you ever heard and angel cry  
Have you ever tried to touch my mind  
Have you ever heard a single word that I say  
Word that means a lot of thing to me  
Have you ever tried just to be here by my side  
Help me find my self a place to hide

One last chance left to try  
Find paths towards the sky  
Waste the fear cause the sorrow is blind.  
I am anxious to feel and I'm dying to forgive  
You are the one in whom I could believe.
