

Altro Che

Innocens

Long for sweet heart to keep
Give a shield
Eyes wide open dreams were broken
Imagining

The windy fields the misty morrows
You better sleep
I would like to turn back time
Altro che

Standing here I dare to feel
You are near
Vastly hard I try to speak
Words that spear

Waiting years for the only kiss
This is me
Hold the face almost forgotten
Altro che!

Embraced me not my dear say what
Needn't breathe
Awake your soul wishing the time
Can but heal

See me weeping oceans seas
Release me
Every emotion I lead to memory
