

Free Me

Innocens

There's a boat on shallow water
Waiting for its crew
So I search this shore and wonder
How can we lie

About the time that heals us all
Within a single year
We will search until the dawn
Show us the way

But I dare and want you
And my courage feels like
And the light shines from you
Let it break what's linked tight

I stand and pray free me
From chains and ropes that choke me so
My heart can send just Mayday
It's getting dark my love

First we cross the land then
Find each other brave
Follow path to nowhere
Save us don't lead astray

We will sail together
Through oceans stormy seas
And we keep forever
All these memories
