

So Make A Wish

Innocens

Dear Liar this was your last sentence
Told like the fear-minded faith
I swear this was your first and last
Regret that I have you ever met

Old lies there are with us forever
Dark days your soul eating fast
Small world beneath the blue sky never
Can't bear your lovin' face feint

What you do with empty heart
See the mission's over
Can not tell but can deny
Forget that we have some feelings all decided

You will feed own instinct
By my endless night

Temptation controls your mind
Inspiration leadin'
Can not tell but can deny
Forget that we have some feelings all decided

You will feed own instinct
By my endless night

Were we satisfied?
Havin' this creature soul
Fault we can not find
Alive forevermore
