

# Astral Path To Supreme Majesties

Inquisition

Far in the night sky a path is born  
Stars form the path  
and carry my soul  
Cosmic fire of the stars I ride  
High I rise as a master of skies

Lonesome realm where the  
spirits are dust  
Poison clouds are the breath of  
life

Tunnels of death are invisible wings  
Mystique moons are floating tombs

Black cosmic sea, I sing to  
thee  
Open the path, oh! Majesty

Infinite universe as  
silent as death  
In this coffin I lay to rest

Astral  
bodies guide me to the throne  
Now I have joined the cosmic  
crypts

Black cosmic sea, I sing to thee  
Open the path,  
oh! Majesty
